

A hand-drawn geometric diagram, likely a technical sketch of a mechanical part or a mathematical figure. The diagram features a complex polygon with several internal lines, including a prominent curved line. Various labels and markings are present:

- Top Center:** A small circle with a vertical line passing through it, labeled "1" above.
- Top Right:** A label "4" near a small tick mark on the upper boundary.
- Right Side:** A label "2" near the rightmost vertex.
- Bottom Right:** A label "5" near a small tick mark on the lower boundary.
- Bottom Center:** A label "1" near a small tick mark on the lower boundary.
- Bottom Left:** A label "4" near the bottom-left vertex.
- Left Side:** A label "2" near a small tick mark on the left boundary.
- Top Left:** A label "5" near the top-left vertex.
- Internal Labels:**
 - A label "0" is located in the upper-left internal region.
 - A label "3" is located in the lower-left internal region.
 - A label "6" is located near the curved internal line.
 - A label "1" is located in the lower-right internal region.
- Geometric Features:**
 - A curved line starts from the top center and extends towards the bottom right.
 - Several straight lines connect vertices and internal points, forming a network of triangles and quadrilaterals.
 - Small tick marks are placed along the outer boundary at several points.
 - Hand-drawn symbols resembling stylized "H" or "E" are located near the top-left and bottom-right vertices.
