

The diagram shows a coordinate system with a vertical axis labeled z'' and a horizontal axis labeled z' . A line l is drawn in the $z''z'$ plane. A plane π_1 is defined by a line l and a point A' . A plane π_2 is defined by a line l and a point B' . The intersection of the two planes is a line l' passing through A' and B' . The intersection of the two planes is a line l' passing through A' and B' .
