

Technical drawing of a hexagonal nut. The drawing shows a hexagon with concentric circles inside. The outermost circle is labeled with a dimension of 36. The innermost circle is labeled with a dimension of 32. The drawing is oriented with a vertical centerline and a horizontal centerline. A dimension of 36 is also indicated on the right side, corresponding to the outer circle's diameter. A dimension of 32 is indicated at the bottom, corresponding to the inner circle's diameter. A dimension of 36 is also indicated on the left side, corresponding to the outer circle's diameter. A dimension of 32 is indicated at the top, corresponding to the inner circle's diameter. A dimension of 36 is also indicated on the right side, corresponding to the outer circle's diameter. A dimension of 32 is indicated at the bottom, corresponding to the inner circle's diameter. A dimension of 36 is also indicated on the left side, corresponding to the outer circle's diameter. A dimension of 32 is indicated at the top, corresponding to the inner circle's diameter.
