

Technical drawing of a mechanical part in cross-section. The part is symmetrical about a horizontal centerline. The overall width is 65. The left side has a total height of 44, with a top flange of thickness 3 and a main body of height 36. The right side has a total height of 42, with a top flange of thickness 10 and a main body of height 32. The central bore has a diameter of 36. There is a shoulder on the left with a diameter of 55 and a fillet with a radius of R6. The right side has a shoulder with a diameter of 32 and a fillet with a radius of R12. The top surface of the right side has a 56-degree chamfer. Dimensions are given in millimeters.
